Effective June 15, 2007 **House Bill 2188** adds Section 552.148 to the Government Code to except certain property tax appraisal information received by the Comptroller or an appraisal district from a private entity, including real property sales prices, descriptions, and characteristics, from disclosure under the state's public information law. The bill provides that the exception from disclosure does not apply to a request by a property owner, the owner's agent, or a school district in relation to a protest hearing or to a request by a property owner, the owner's agent, or a school district in relation to a protest of a Comptroller's determination of property values.
